

LITHIUM-ION BATTERY RECYCLING PRIZE

U.S. DEPARTMENT OF ENERGY

Team Name: E3greenbattery

A Public Document

Primary Submitter: David Strange

City and State: Milwaukee, Wisconsin

Member Names: Elite Energy Distribution, Maggie Norton, David Hamill, Factory Surplus Batteries, Inc., Mark Hernandez, Michael Fairbanks, Dan Spiegel, Kevin Crozier

Submission Title: E-battery aggregation and awareness initiatives

Submission Track: Collection

Abstract:

We will address a simplified multi-step solution to the aggregation of lion batteries and other types of rechargeable batteries because they go hand in hand. Focus upon the education and the awareness of lithium ion battery recycling issues and solutions. Include involvement of existing distribution channels; battery companies, battery dealers, battery distributors...
