

LITHIUM-ION BATTERY RECYCLING PRIZE

U.S. DEPARTMENT OF ENERGY

Team Name: Applied Impact

A Public Document

Primary Submitter: Jade Garrett

City and State: Vienna, VA

Member Names: Jade Garrett, Fred Briggs from Applied Impact

Partners and Affiliates: Nick Swayne, with James Madison University and the 4VA program. Callye Keen, with Red Blue Collective. Joseph Floyd, Zero Waste advisor and Media Consultant.

Submission Title: Creating Impact for Lithium-Ion Battery Collection

Submission Track: Track 1: Collection

Abstract: (<100 Word)

Applied Impact will implement a Lithium-Ion Battery Collection Program at Universities so that collection models can be tested and scaled for adoption other Universities and similar organizations so volume-based contracts with certified Lithium-Ion Battery Recyclers in the US can be reached and revenue can be generated that will ensure the sustainability of this program.

Lithium-Ion Battery Recycling Prize

*Supported by the U.S. Department of Energy Vehicle Technologies Office and Advanced Manufacturing Office;
Administered by the National Renewable Energy Laboratory*
