

## **Hydro Kinetic Energy Harvesting for Wastewater Treatment Facilities**

*Adapting mechanical design elements of the VIVACE hydro kinetic energy converter to fit the dimensions and topography of identified effluent flows at the City of Ann Arbor Wastewater Treatment Facility; optimizing the harvesting efficiency through controls; and producing a manufacturable design that can be easily deployed and maintained.*

Micheal Bernitsas, PhD., Mortimer E. Cooley Collegiate Prof. of Engineering, Prof. of Naval Architecture and Marine Engineering, Prof. of Mechanical Engineering, Director, Marine Renewable Energy Laboratory, University of Michigan; Life Fellow of ASME and SNAME

Andrew Warner, PE, President, Wartech Engineering

Earl J. Kenzie, P.E., Wastewater Treatment Services Manager, City of Ann Arbor Wastewater Treatment Facility

Christopher J. Englert, P.E., Wastewater Treatment Services Engineer, City of Ann Arbor Wastewater Treatment Facility
