

## Problem

- Most homeowners don't like the look of solar panels.
- For residential solar to go mainstream, solar products that integrate and blend are necessary

## Plan

CertainTeed

+

SUNTEGRA™

=

Scalable,  
Lower-cost  
"Next-Gen"  
product by early  
2022

American-Made Challenges:  
**SOLAR PRIZE**

Made in Highland, NY

## Solution

### Scalable "Next Generation" Solar Roofing Products:

1. Further aesthetic differentiation
2. Lower cost components
3. Simplified installation and support

## Accomplishments and Team

- **Experienced Team:** Both CertainTeed and SunTegra have supported hundreds of solar roof installations since 2014
- **Complimentary Capabilities:** CertainTeed provided access to its roofing channel and roofing know-how; SunTegra has the R&D and manufacturing capabilities in-house
- **Scale through Collaboration:** By working together an improved product and scale can be realized
