

Membrane Distillation with Ceramic Membranes

Lead Organization

Solar System Design Partner

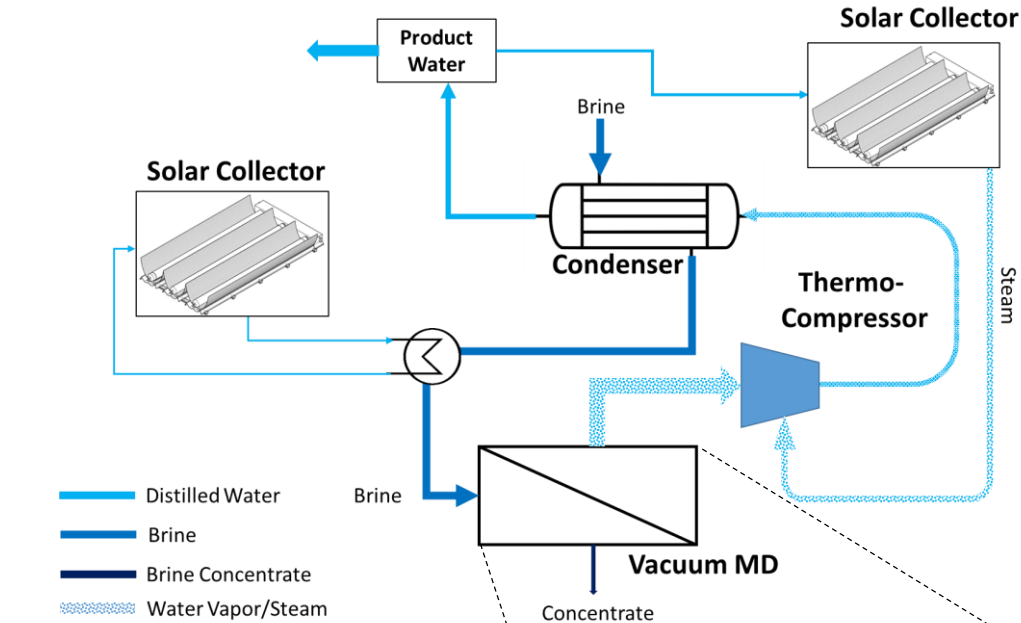

Techno-Economic Assessment Partner

Membrane Design Partner and SETO Subawardee

Solar System and MD Design Partner and SETO Subawardee

Ceramic membranes offer chemical, thermal, and mechanical robustness to enable solar-driven concentration of brines using membrane distillation

Solar Thermal Collector Provider

Ceramic Membrane Provider and Technology Supporter Collaborators with SETO Subawardees

U.S. Ceramic Membrane Manufacturer

Center for Inland Desalination Systems, Demonstration Partner
