

Geothermal Manufacturing Prize

Prepared for *Team Baker Hughes, Robert Krumm*

Objective: For the Geo! portion of the competition, the team will be able to perform all testing in Baker Hughes' Houston laboratories.

Voucher Outcome:

Team Baker Hughes determined that the legal and intellectual property due diligence of using vouchers makes it hard to ensure we can use the vouchers in the time-frame defined by the rules. Our legal counsel informed us that it is unlikely that we would be able to have any sort of agreement finalized before the vouchers expire; we are open to other options and input from prize coordinators.

At this stage of the competition, we respectfully decline the vouchers but are open to using them in the future.

You must include a statement of support from the relevant PI – this could be an e-mail or short note confirming they agree with the proposed scope of work.
