

Dear American-Made Network,

Winston Cone Optics has broad desire to pursue additional manufacturing capabilities / expertise in the following areas:

- Coil sheet metal processing / automation
- Automated slip-roller for sheet metal shaping
- Aluminum water-jet cutting
- ABS injection molding
- Aluminum extrusion

We are looking for standard (SRCC) testing partners

- Solar thermal testing facilities

And we would like to hear from you if you have the following needs

- Solar process heating (e.g. renewable heat source) up to 150 °C
- Brackish water processing / desalination
- Remote / mobile heating requirements

Regards,

Winston Cone Optics
