*REGENERON*

# AGENDA

**Welcome** by Al Bunshaft, Base 11 Board member

**A word from our partner** by Potoula Stavropoulos,  
Senior Director, Social Impact, Regeneron

**STEM Superhero Stories & Panel Discussion,**  
moderated by Gabrielle D. Harris, Chief of Staff - Interim  
Parity Project Program Manager, Base 11

**Panel Q&A and 'How to Participate' Walkthrough**

**REGENERON**

# DR. LYNDON MITNAUL PHD

Dr. Lyndon J. Mitnaul is an Executive Director in the Regeneron Genetics Center at Regeneron Pharmaceuticals, Inc., in Tarrytown, NY, where he establishes and manages multi-organization, large-scale, diverse, human genetics research collaborations, and education and training initiatives focused on minority communities.

## MY STEM SUPERHERO

Mr. Hollis Williams

Retired Scientists at Merck Research Labs

Mr. Lyndon J. Mitnaul  
Benedict College  
Division of Mathematics  
and Natural Sciences  
Columbia, SC 29204

Dear Mr. Mitnaul:

After much deliberation, our committee on summer employment will not be offering you a position in our laboratories for the coming summer.

I am impressed with your desire to spend the summer with us and regret that we do not have additional summer positions. I hope that you have other opportunities for summer employment and that you maintain your interest in science.

Sincerely,

cc: Dr. James Kinard  
Mr. Hollis Williams
